

Dear colleagues and friends

On behalf of SERAU and ESER, it is an honor and also a pleasure for us and the boards of both societies to organize the 2019 SERAU-ESER Annual Scientific Meeting, to be held for the first time in Seville on the 16th and 17th of May, 2019.

The scientific section of the meeting is, without a doubt, the most relevant, though it is also important to be able to exchange experiences and personal and professional relationships with our international colleagues in an attractive, pleasant environment. In this sense, the city of Seville, its cultural attractions, streets, gastronomy, and people will definitely be a good setting to share this edition of our meeting.

We are offering a programme that will include relevant topics of current interest in the field of emergency radiology covered by national and international speakers. Workshops that will count towards the European Diploma of Emergency Radiology (EDER) will also be available. This diploma aims to be a common European qualification for radiologists and is endorsed by the European Society of Radiology (ESR).

We hope the congress will be a success and very beneficial for the professional development of all the attendees.

We look forward to seeing you in Seville.

Kind regards,

Luis Cueto
SERAU Congress President

Raffaella Basilico
ESER Congress President

Milagros Martí
SERAU President

Elizabeth Dick
ESER President 2019
